FAIRNESS.

The Republican of last week has editorial and long communication the subject of corporation affairs, an both articles make bitter complaint against the Democrat of unfairness and with sundry chaste and appropriate ancedotes show wherein we lack both decency and sense.

We have complained at the inefficier ey or inaction of the present corporate government, whenever we have had just cause for complaint, and instead showing our complaint unwarranted making any improvement in their ma agement of affairs, the organ of the poration contents itself with finding fault with our grumbling disposition.

These officers made a great parade when they took charge of the interests of the town. They had defeated the Democracy because of the inefficiency or dishonesty of the Democratic of cials: and now they proposed to be both remarkably efficient, honest and eco nomical. They repealed all the old laws, and enacted an entirely new set Everything must be changed, all had been wrong always heretofore, and must now be perfected.

How much improvement has been made, every citizen knows. Nearly half the laws enacted cannot be enforced by a town corporation, and the remainder in his pocket," even if he must do are in no way superior to those hereto- by disreputable means. fore enforced. They do not attempt the enforcement of their laws. The streets are cleaned by common consent, only. WADSWORTH, of the LaPorte Argus; want them, and will not acknowledge in endeavoring to build up and maintain a good corporate government, and in inculcating obedience to public authority, while seeking by fair discussion to reform where evils exist and sustain where HOWARD COE, of the LaGrange Demreformation is not required. Three months of continuous personal and abusive slang-for it deserves no better name-on one subject, is enough for any community, and a paper that continues it to the exclusion of almost all other matter, can be fairly charged with lack of decency or lack of sense.

It seems to make a great difference with this charmingl honesty and in genious correspondent, "whose ox gored." It was very right, just and proper, last year, for the very men that now want the illegal laws observed by common consent,-it was all very well then to resist the laws and seek to destroy the corporation; at the same time it admitted that the old board was honest and acted from no rong motives, and to day the taxes of thefe same gentlemen are unpaid. The only ground for resisting the collection last year, was on technicality-not because the tax was too high, or because the money was mis applied. Now a "change comes o'er the spirit of their dreams," and we shall observe these new laws by consent, and without complaint, because we will be the better for it; and must not exercise our own judgement, even, in determining this point.

As to the charges made of the various sums of money missing, or in the hands of the old board, to-wit: \$900; \$300; and \$1,700 unaccounted for, we leave Michigan Southern and Lake Shore to a correspondent next week. The road, and to the energetic and unselfish charges are silly, in the extreeme, and we can hardly see how a fair minded man could stoop to such trickery. If all he says were true, it would be the duty of the present board to bring action and recover the money.

Of all the contemptible little things the Republican has been guilty of during the past month, its local relative to the Festival, for which we printed the bills a few days ago, discounts its formefforts. The statement, to begin with. that many gratuitous notices appeared in the Republican in aid of the denomination for whose benefit the festival wa held, and that none appeared in the DEMOCRAT, is simply unqualifiedly false, and was known to be so by its auther when uttered. The DEMOCRAT published all notices furnished gratuiously; and the very same, we think that were furnished to the Republican office, and did it, too, without the thought of some day making our money back by a job that would pay. We are not surprised that this motive actuated the Republican, but we are surprised at the lack of sense and decency which makes it public.

notices were published in both papers, for the same church, a fair or festival was held, and some pay work was to be done, and the job was taken to the Republican office.
